

How to update your application online

when you move to a new state

- When you move to a **new state**, your coverage options will change. You may no longer be eligible for your current plan. New plans, prices, and savings may also be available to you.
- It's **very** important to report your move as soon as possible. This way, you won't have a break in coverage and can enroll in a plan you're eligible for in your new state.
